WHAT IS OUTDOOR AFICIONADOS (OAF)?

It's an ecosystem bridging the web 2.0. outdoor world with the web 3.0 technology and opportunities. It contains few pillars:

Ecosystem - details

Mobile APP Web 3.0.
 hike 2 earn app W@ze for outdoor market

V1 - free
 V2 - price TBD
 V3 - Price TBD

Rewarding users with credit points for using the App (credits can also be purchased). At the end of the year all credits can be convertible in discount vouchers or \$OAF tokens. At the beginning of every new year the subscription period restarts

NFT genesis edition (HappyMarmots.io),
 IP rights, royalties to the community, real world utility

NFT Artwork was done by artist Pablo Andres Pozo. The 8848 marmots (which represent the Everest height) will be launched and give access to services, products, perks, special discounts, raffles, royalties shared* to the artist & community!

\$OAF token
 on the Polygon Blockchain

The OAF ecosystem is governed by credit(fidelity) points for activity. Users may choose to transform them in \$OAF token (Polygon blockchain based) at the end of the year. Launching of the \$OAF token is set for June 2024. Tokens are meant to be used for various activities/ upgrades/ buying discounted products/ listings etc. Users may also buy tokens and use them to access these benefits in the Outdoor Aficionados network. \$OAF token is projected to be listed on the relevant market as soon as appropriate to improve accessibility.

The Outlet Shop

Explore our Outdoor Outlet & Shop, which will be opened on the Amazon platform, in Q3 2024.

NFT Real Estate

Exploring ways as to bringing co-ownership time share rights obtained only in exchange of \$OAF tokens.

NFT for real estate: with second generation of NFTs – access to private mountain cabins on a time-share basis, offered to the holders of the NFTs from this future dedicated collection.

BETA
VERSION

About the project

We envisage integrating Web 3.0 in Outdoor Aficionados hike-to-earn App: Marketplace, NFTS Real Estate

- *Introducing the First Hike-to-Earn App: A user friendly social hiking platform that not only connects outdoor enthusiasts but also rewards you for exploring the great outdoors.*

- *Advanced Features for a Safe and Interactive Experience* : Utilise our satellite view for superior navigation and stay aware of potential hazards. In emergencies, our SOS feature alerts nearby users within a 15km radius. Help would be also rewarded in-app, with credit points. We thus strive to foster a community whereby users look for eachother*

- *A Blend of Technology and Nature: Our app is conceived as the outdoor equivalent of W@ze (this is merely an illustrative, but not an exact example). The APP would allow specific benefits such as earning digital rewards for every hike and other privileges exclusively reserved to our users.*

- *Connect and Plan: Seamlessly interact with fellow hikers, organize excursions with friends and be part of a vibrant community of nature lovers.*

**Terms and conditions apply*

APP beta-test links

It has:

social value, user can interact between them in real time, on app

safety upgrades: users can announce via SOS feature, all other user on a range of 15 km radius, that they need help or if they encountered a hazard (road blocked, wild animal, fire, etc)

added value: users would actively be involved in the project's life and also be rewarded with credit points for their activity. At the end of the year, these achievements are designed to be converted to \$OAF tokens(tokenomics apply).

more features: acces to perks, discounted products, events and premium features for referral affiliate programs for the upgraded versions of the app (paid yearly subscriptions).

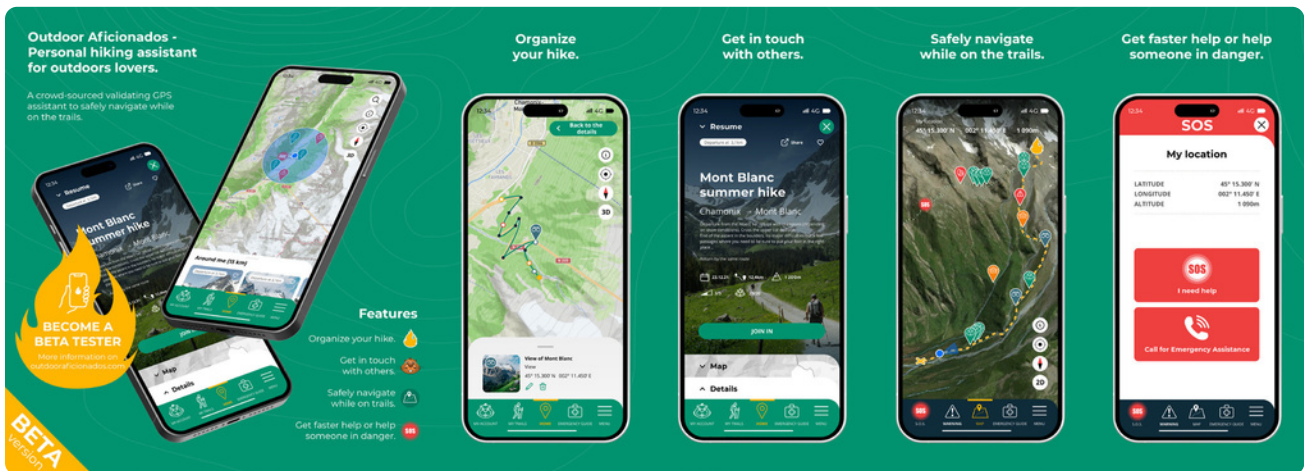

How it works

Hike-To-Earn

SAFE SOCIAL TREKKING App

Like a « W@ZE » for outdoor world

THE APP (web 3.0, sos button, interactive features, earning systems, real life value returns for community)

The OAF ecosystem is governed by credit points for activity. The credit points can be used as discount vouchers or transformed in \$OAF token (Polygon blockchain based) at the end of the year and the user credit goes to zero for the next year. Each subscription gets an amount of credit points at start. Tokens/credits can be used for various activities/ upgrades/ products/ listings etc. Discounts can be used in the Outdoor outlet & shop open under amazon platform. NFT based real estate participation. V1 - MVP is intended to rest free - easy to use social-family & friends oriented. V2 - pro - meteo/peak identification/technical maps/trainings sessions - Fee for service (TBD)

V1 - MVP is intended to rest free - easy to use social-family & friends oriented.

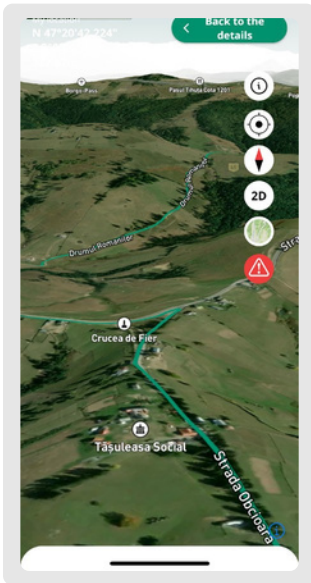

V2 - pro - meteo/peak identification/technical maps/trainings sessions - Fee for service (TBD)

You can organize and propose a trail to members so they can join you in the trail. GPX uploads possible. Social features with the team members (chat, sharing etc) available in V. 2

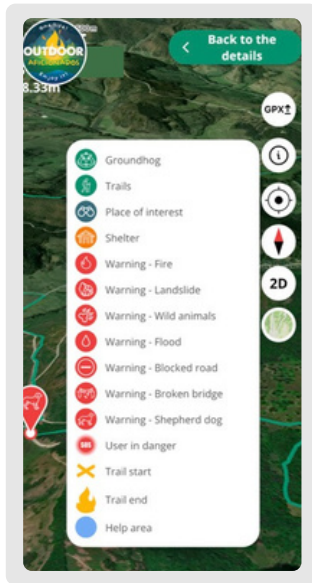

You can see the public open trails around you or all over the world and join/ interact with others. You can choose proposed trails - GPX traces from the library or just simply edit and finger trace your own trail and then propose it to others.

In hike mode you can see all the users (marmots) around you/ dangers signaled by others, view points, shelters, hazards and gathering point(flame) or SOS launched by someone in distress situation

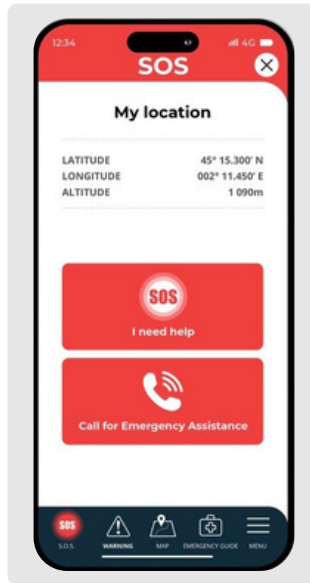

SOS button(Marmot alert) -you can send the alert and every user on the 15 km radius(blue zone) will be notified so they can join you/ offer you assistance and wait with you the mountain rescue. Or you can offer your assistance and join them - they will know that you are coming.

Satellite view, available offline for easy orientation on the field

You can announce to all hikers on the area about hazards on the trail: wild animals, broken bridge, shepherd dog etc

You can launch an SOS to everyone around you on 15 km radius to get faster assistance or you can help someone in distress

SOS - 15 km radius - blue zone

New features in V2, V3 - Peak identification and Professional meteo services

Peak identification software, available offline too

LIVE on screen compass and live tracking features, meteo layers on location

Professional meter services - resolution 30 m (TBD)

Difference between the non-paid version vs paid versions (examples, points TBD)

Web 2.0. (in -app credits/gaming points)

Web 3.0. (in -app credits or TOKENS)

Development stage:

Application is since last summer in BETA-Test on App Store and Google Play, it was tested on field in the French & Italian Alpes and in Patagonia, Argentina. Trademark registered, patent pending for SOS function.

 Patent filled for SOS button feature
 Web 3.0./app

Under Amazon platform, an outlet Outdoor Aficionados will be established to provide discounts on outdoor merchandise for the benefit of App users, on the basis of specific rules to be developed in the Ecosystem.

NFT OG Genesis - Happymarmots.io first step into the web 3.0. of Outdoor Aficionados

NFT Genesis

Artist: *Pablo Andres Pozo*

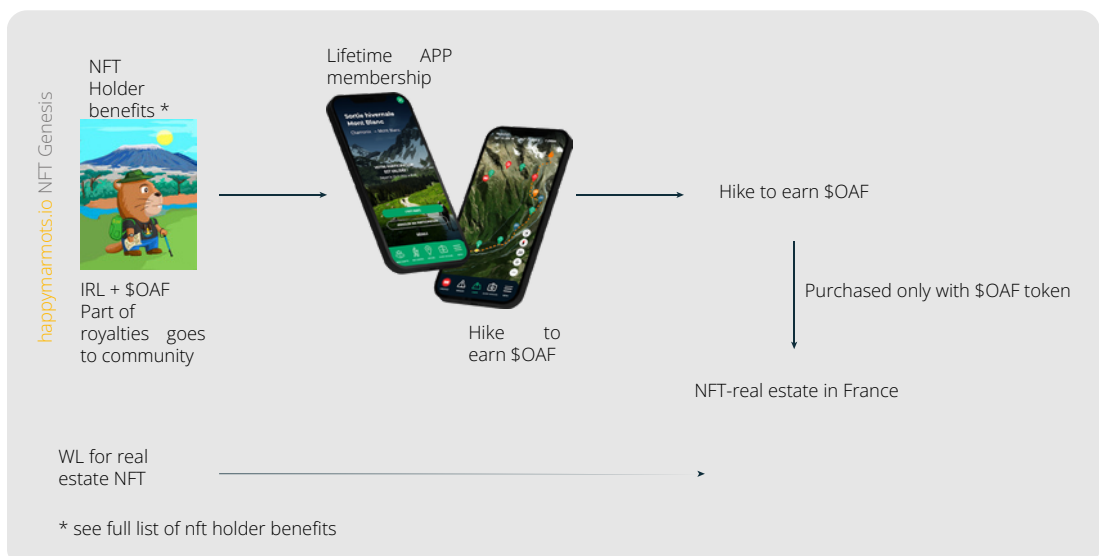

Style: *South Park illustration*

- **Social and vigilant** – Just like marmots, renowned for their social nature and alertness, our app is envisaged to foster a community spirit and is aimed at ensuring user safety. Marmots live in large colonies and use their distinct whistle to warn of danger, mirroring our app's focus on connectivity and proactive care.
- **Reflecting Our Core Values:** The application is thought to embody the essence of marmots – being social, responsible, and protective. We aim to bring together like-minded outdoor enthusiasts in a fun and secure digital environment.

Introducing Our NFT Genesis - artist Pablo Andres Pozo

- **Exclusive 8848 Marmot Tokens:** Inspired by the height of Mount Everest (8848 meters), we're launching 8848 unique marmot-themed NFT tokens. This genesis collection symbolizes the peak of adventure and community spirit.
- **Unlock a World of Benefits:** Owning the NFTs would grant access to a range of services, products, special discounts, raffles, and more, enhancing your outdoor experience.
- **Be Part of Our Launching Event:** Discover the NFT genesis edition and join our vibrant community at www.happymarmots.io

NFT Holder Benefits:

Benefits of holding Happy Marmots NFTs

1. **Lifetime Membership:** Holders would enjoy a lifetime APP subscription, with all future version upgrades included. (They would receive loyalty bonus points each year for using the app, which could also be converted into tokens.)
2. **\$OAF Token Airdrops:** Receive \$OAF token airdrop for holding your NFT
3. **Yearly App Credits:** Earn in-app credits, that are set to be annually convertible into \$OAF tokens. (Hike2earn)
4. **6% Royalties for Community and Artist :** 4% of royalties generated through the subsequent sales of NFTs will be allocated to the OAF community. This allocation is intended to support community growth, marketing, airdrops and other initiatives that benefits the community as a whole. The rest of 2% of royalties -> going to the artist.
5. **Partner NFT Airdrops:** Chance to receive airdropped NFTs from partner collections.
6. **Regular Raffles:** Participate in quarterly or monthly raffles for a chance to win items found in the traits of your NFT (like backpacks or other accessories, or their equivalent in \$OAF tokens.)
7. **Early Access to RWA NFTs:** Be white-listed for the upcoming real estate NFT, exclusive to the project.
8. **Exclusive Discounts:** Users may get special discounts on outdoor equipment within our Outlet store.
9. **Marmot X Factor:** Benefit from a special multiplier effect, enhancing the conversion rate of credit points to \$OAF tokens at the end of each year.
10. **Priority Event Access:** Enjoy priority access to events organized by the project.

NFT Genesis - The Original Gamechanger

- *A Pledge to Progress:* All funds raised from the NFT Genesis are dedicated to the evolution of our project. Your support is directly fueling our next big steps.
- *Introducing Our Layer 2 Utility Token on Polygon:* Built for efficiency and scalability, this token represents a crucial advancement in our ecosystem.

PRE SALE	WHITELISTED	PUBLIC SALE / WL	SOLD OUT! Exclusive prizes, gifts, and tombola events, exclusively for our community members.
March	April-May	June 2024	

Minting process:

We plan that on the beginning of June 2024, to announce the public fixed mint price, rules for airdrops, airdrop the private/presale nfts, open the whitelist for mint. As soon as the allocated NTFs for WL are minted, or 12 h later, minting goes public.

Public mint: it would be open until sold out (or date limit – tbd)

As the levels go up they unlock the gifts/raffles and marketing budget. Prizes* are not public

until reveal. In this way, for example, the prizes corresponding to the Moldoveanu minting level will be revealed when the milestone for this level is achieved (2544 nfts minted – that's the height of Mt. Moldoveanu at peak). As the level goes up, the prizes go up in value! For reaching Mont Blanc level the prizes are higher, until the Everest minting level is achieved and the BIG Prize is unlocked and revealed.

*subject to specific terms and conditions by the law, to be further announced

TOKEN

The OAF ecosystem is conceived to offer users fidelity points for their activity. This fidelity points could be transformed in quantities of \$OAF token (Polygon blockchain based) at the end of the year. Launching of the \$OAF token is set for and we expect to take place in Jun 2024.

Tokens could be used for various activities/ upgrades/ buying discounted products/ listings etc. Business partners as chalets, hotels, travel agencies, shops, guides, etc are also expected to buy tokens in order to access different marketing services aimed to be made available within the APP (we plan to provide perpetual discount for \$OAF token-based access to these services).

Users may buy \$OAF tokens and thus purposefully use them throughout the network.

Web 3.0/ APP/ Outlet market/NFT/ TOKEN/ NFT Real-estate

WHY TOKENS ?

It's a web 3.0. app so is mandatory to accept/use a form of token. We decided to have our own and it's easier in terms of marketing to use it and it would allow tailored use-cases, but also for the next reasons:

- **General environment** - technology shifting. We believe that the world is already in web 3.0. mostly with the upcoming regularizations of blockchain environment inadvertently express the wide-spread acceptance of the real economic value of web 3.0. models.
- **Marketing & communication mechanism.** The best of our knowledge Outdoor Aficionados is the first/only application HIKE-TO-EARN on the market today

- **Technological environment** - The best of our knowledge is the first/ only WEB 3.0. ready application for outdoor market

- **Market** - The trend is to accept tokens as payment/access to services. Our partners (e.g. travel agencies, guides, accommodation units, outdoor stores/brands) are expected to be eager to accept the \$OAF token as a means to access different services offered on the platform.

- **Payment & sales** - Nowadays, it is possible to make a crypto payment for accessing various services without even noticing it. We aim to provide this benefit to our users through the fiat-to-crypto ramp or solution we are considering implementing.

Tokenomics & the related ecosystem

\$OAF Tokens are conceived as utility-type tokens deployed on the layer 2 type blockchain known as Polygon blockchain. This token is intended to enable access to several app services, as well as discounts and potential payment mechanisms for items available on our Amazon Outlet platform. This may raise awareness to various consumers, such as outdoor enthusiasts, but also to promoters, merchants and other businesses that find an underlying utility value in such use-cases.

Actions

Users:- *would be able to buy tokens on the dedicated crypto-exchange, receive perks/access to special offers/exclusive marketing campaign, earn tokens for actions(activity registered through the app)- exchange different quantities of \$OAF tokens for different NFTs.*

Merchants:- *would be able to earn tokens in exchange for products or services- gift tokens to potential customers or as rewards, use tokens to list their own products on the platform, use tokens to promote products on the platform at a discount rates*

Promoters:- *would be able to earn tokens by promoting the platform, earn tokens by referring customers to the platform*

Application V1 -core (sos, maps, social value, public trails, etc) is seen as always free and GSM based.

Users would be able to obtain credit points by using the app/ referral etc . As such, at the end of the year credit points are transformable into \$OAF token quantities, subject of being used to access our products or services. Users might also buy tokens on the relevant marketplace if they wish so.

V2 - social +, chat, interactive, P2E - TBD - User gets credits for adding Gpx trails, using the platform

V3 - ADD ON peak identifier and meteo pro service -- TBD proposal

V4 - intention is to go from GSM signal to satellite com - fee for service – TBD

Token Utility

- **Hike-to-Earn**
- **Pro-Business/Partners:** Ability for businesses (hotels, agencies) to advertise or list properties in the app, payable with OAF (Q4 2024)
- **Membership:** Accessible through OAF token payments
- **Exclusive Events:** Participation in meetups and events organized by OAF, payable only with OAF token
- **RWA NFTs:** Acquisition exclusively via OAF tokens
- **Discount Vouchers:** Available for purchase with OAF token
- **Burn Mechanisms:** Regular implementation of token burn mechanisms, compliant with current and future EU legislation.

The \$OAF token is designed to have most of its supply available on the market from the start.

Our aim is to have it completely unvested by Q3 2025, while we explore effective burn mechanisms to decrease its supply.

NFT Real Estate

As soon as the previous project milestones are reached, our view is to acquire in every community a mountain chalet where users may enjoy at a preferential discounted price! First unit is expected to be acquired in the French Alps but not before the beginning of 2025, to ensure the best possible conditions for proceeding.

The Real estate NFT would also give time-sharing rights to the holder in different periods. NFT are envisaged to be made available for minting exclusively in exchange of \$OAF token quantities!

Conclusions

- A 'W@ze' – type application for outdoor world
- Safety First: Patent-pending hazard alert button.
- Community Gathering: Unique flame icon for member meetups.
- Earn and Convert: Points from app use turn into OAF\$ tokens, exchange-listed.
- Holder-Only Benefits: Discounts, perks, and prizes.
- Outdoor Marketplace: Special access to products and/or services
